

## Course Information Sheet

Course Title	UCAS Code	Campus Code
HND Computing: Cyber Security and Ethical Hacking	I160	W

You can find full details of your course in the *Programme Specification*.

### Important points

- This is a full time higher education (HE) course lasting two years.
- On successful completion of the full course, students will be awarded with a Higher National Diploma (HND) in Cyber Security and Ethical Hacking
- On successful completion of the HND, students are able to progress to either the final year or second year of a university degree course. However, progression is not guaranteed, this is dependent upon academic performance.
- The course is delivered at West Herts College, Watford Campus.

### Expected workload

In the UK, a full time HE student is expected to spend 1200 hours on their studies each year. Please find below an estimate of how your time will be spent on this course during each year of study. Independent study includes designated reading weeks, assignment work and general independent study time

Year	Lessons, seminars, tutorials	Independent study	Placement
1	34%	66%	0%
2	31%	69%	0%

## Method of assessment

Year	Written exam	Coursework	Practical
1	None	100%	None
2	None	100%	None

## Fees

This course costs £6165 per year
